

## Are you looking for expert knowledge?

You have an idea but you do not know how to transform it into a product?

You are not sure about the right choice regarding material and technology?

Then we are the right partner and will assist you competently.

## Is series production a topic?

Especially if you are interested in series production, you will receive broad assistance and optimally matched offers from us.

## Let us advice you...

As an experienced and highly professional additive-manufacturing-supplier located in the Munich area we are able to provide the optimal solutions for your requests.

### Don't you like to wait?

We are prepare a quote for your project - without any obligation - in normally less than 6 hours.

Get in touch with us  
via phone

85551 Kirchheim b. München

## State-of-the-art technologies

### HP Multi Jet Fusion

HP MJF 4210 (2x)

HP MJF 580 (full color)

### Selective Lasersintering (SLS - plastic)

PRODWAYS ProMaker P1000

EOSINT P 390

EOSINT P 3XX

EOS Formiga P 100 (2x)

### FFF-Technology

German Reprap X400 (2x)

### Stereolithography (SLA)

### Vacuum casting

### RIM-technology

## Tremendous choice

HP MJF - PA 12 anthracite / grey

HP MJF - PA 12 full color

HP MJF - PA 12 GB anthracite / grey

SLS - PA 2200 Nylon 12 -our standard

SLS - PA 3200GF Nylon12- glas-filled

SLS - PA 12AL Alumide- aluminium-filled

SLS - PA 1101 Nylon 11 -extrem impact resistance

SLS - PA FR2241 Nylon12-flame-retardant

SLS - TPU highly flexible / rubber-like

SLS - Polypropylene PP chemical resistant

SLA - Accura® Clearvue transparent clear

SLA - Accura® Phoenix transparent, HT

SLA - Accura® HPC Composite-Harz, extrem stiff, HT

SLA - Somos® EvoLve 128 functional-optimized

## Why choose us?

We are an extremely motivated team dealing with additive manufacturing for more than 20 years now.

Due to our state-of-the-art technology and knowledge we offer optimal results for your projects.

Customers from all branches such as architecture, consumer goods, design, electronics, health and food, fashion and lifestyle, model making, jewelry, dentistry and marketing rely on our competence.

If there is a time pressure, we can process your orders even faster thanks to our vertically integrated value chain - so you will meet your deadline.

*additional technologies  
& surface treatment*

*express  
service*

*know how &  
deep experience*

FFF - ABS EL electroconductive

FFF - DSM Novamid® ID1030 PA6/66

FFF - DSM Novamid® AM1030 FR blue card

FFF - XStrand PA6-GF30% extrem resilient

FFF - DuPont Hytrel® 40D Shore TPE

FFF - ABS | PC | PET | PLA | PA666

FDM - Ultem 1010

FDM - Ultem 9085

## Post-processing

Tumbling  
Infiltration

Coloring or spray painting - also in special or RAL-colors

Barrel coating (series)
